CAREER OBJECTIVES

• To leverage my academic, technical, and human relations skills in a dynamic, challenging, and result-oriented organization or company focused on cybersecurity. I aim to contribute to the development agenda and advancement of cybersecurity measures that positively impact society and the world at large.

• To join an organization, company, or institution that not only employs me but also molds me to become an active part of its pursuit of cybersecurity goals. I aspire to continuously enhance my skills and knowledge in cybersecurity to stay updated with the evolving threat landscape and contribute effectively to the organization's security posture.

• To become a responsible and proactive cybersecurity professional, capable of independently undertaking duties and responsibilities related to cybersecurity with limited supervision. I am motivated to constantly learn and apply innovative solutions to protect critical systems, networks, and data from cyber threats.

• To work in a dynamic organization that provides opportunities to meet challenges and utilize both my acquired skills and intrinsic capabilities optimally for organizational,

personal, and career growth. I am driven by a strong desire to serve both God and humanity through securing digital environments and promoting a safe and trustworthy cyberspace.

<u>Key Focus Areas:</u>
- Cybersecurity strategy and governance
- Security risk assessment and management
- Incident response and threat intelligence
- Vulnerability assessment and penetration testing
- Security awareness and training
- Digital forensics
- Security operations and monitoring

By aligning my career objectives with a focus on cybersecurity, I aim to contribute my expertise and dedication to ensuring the confidentiality, integrity, and availability of digital assets, as well as fostering a cyber-resilient ecosystem in today's interconnected world.

<u>PROFFESSIONAL EXPERIENCE</u>
- ICT Authority since December 2022 to date.
